About Pacific Northwest Canned Pears Service

In 1954, Bartlett pear growers and processors in Oregon, Washington, and California created the Pacific Coast Canned Pear Service for the purpose of promoting market development for the consumption of canned Bartlett pears in the U.S. The commitment to fund marketing programs continued and, in 1996, the Pacific Northwest Canned Pear Service (PNCPS) was formed to promote Bartlett pears grown and processed in Oregon and Washington.

After generations of nurturing their orchards, today more than 1,400 family farms across Washington and Oregon provide pears to local processors and fund the PNCPS marketing programs.

The administrative operations of PNCPS are managed by the Washington State Fruit Commission. <https://www.wastatefruit.com/>

PNCPS is one of many USDA Agricultural Marketing Service (AMS) research and promotion oversight programs funded through assessments per ton on fruit delivered to local processors. AMS programs establish a framework for farmers to pool resources to develop new markets, strengthen existing markets, and conduct research and promotion activities.
